HD Supply Waterworks honored by Illinois, Missouri and Wisconsin Rural Water Associations

HD Supply Waterworks' teams in Illinois, Missouri and Wisconsin, were each honored by their state's Rural Water Association chapter.

In Missouri, HD Supply Waterworks' District Manager Randy Bradley said that it was the first time in 31 years that the company received the Missouri Rural Water Association's Associate Member of the Year. HD Supply Waterworks' branches in Illinois were also honored with the Illinois Rural Water Association's Associate Member of the Year award, and Wisconsin branches were awarded with the Wisconsin Rural Water Association's Business Member of the year, which they have received many times over the years.

The awards recognize member organizations for their longstanding membership, support, leadership and participation in the Rural Water Association.

Congratulations!
